

Eco-Friendly Guidelines

1. Replacing bulb with CFL'S
2. Replacing plastic bags with paper bags
3. Switching off vehicles at traffic signals
4. switching off lights and fans when not in use
5. Honking less
6. Turning off the tap when not in use during washing, bathing, shaving... doing that we save more than 30 liters of water a day. That is the ration of water for a Somalian person for a week.
7. Cleaning the surrounding of eco- hazardous waste e.g. plastics
8. Buying eco-friendly products e.g. jute bags
9. Switching to Solar Energy
10. Planting Saplings
